- INITIAL FEED DATE: WEDNESDAY, MARCH 07, 2018 -

SYNOPSIS

Thirsty Work

Our host introduces us to Lance; he's invented a hydration system that's part of your hockey gear, so your water is always with you. Will it beat even the fastest skaters when it comes to taking a water break? We also meet Marcus and his hockey equipment dryer. While our host modifies sports equipment in an attempt to better his performance.

Future Power

Our host introduces us to Llew; he's invented a type of fuel cell that can turn cow manure into electric voltage and methane gas. Could manure be the new alternative to fossil fuels? After a trip to the dairy farm to collect some manure, he'll test his invention – can poop really produce power? We also meet Hamza, Mathew, Calvin and Hamza and their food-friendly utensil. While our host works on an alternative energy invention of his own.

SYNOPSIS

Getting Around

Our host introduces us to Ben; he's invented an electric motorbike half the size of a common street bike, which moves at city speeds – environmental and practical. But with the amount of work involved, can he get it road ready? We also meet Kirsten and her fun flying disk. While our host gives us do-it-at-home tips to make a flying vehicle of our own: the ultimate paper airplane.

SYNOPSIS

Bells and Whistles

Our host introduces us to Daniel; he's invented a new sound for a smoke alarm. Could it be better than a regular alarm? He'll show his invention at the local fire station and test it with a tough crowd - at a sleepover party. Will he prove his invention works or will the test be a snore? We also meet Scott, and his all-in-one card. While our host gives us do-it-at-home tips on how to make our very own piggybank.
